

Hello!

I'm excited to share that your child can work in a program called Read Live at home for free! Read Live includes an independent, structured reading program called One Minute Reader Live. In One Minute Reader Live, your child will be able to work independently and continue to make reading progress. Please note that this program requires internet access and a computer or tablet. Would you like me to give your child access to work in this program?

Yes, please give my child access to One Minute Reader Live.

No, my child does not need access to One Minute Reader Live.
